JOURNAL OF THE ROYAL STATISTICAL SOCIETY (SERIES C)

Editorial Board

V. BARNETT
Joint Editor

P. R. FISK
Joint Editor

STELLA V. CUNLIFFE
Chairman

C. J. CLARK

B. E. COOPER

I. R. DUNSMORE

A. S. C. EHRENBERG

R. D. ELSTON

A. A. GREENFIELD

I. D. HILL

W. S. PAIGE

H. R. SIMPSON
Algorithm Editor

D. N. SPARKS
Review Editor

G. WATTS

Applied Statistics

Volume 27, 1978

ROYAL STATISTICAL SOCIETY
25 Enford Street, London W1H 2BH

CONTENTS

Volume 27, 1978

No. 1

		Page
The 1977 Sheffield Conference on Graphical Methods in Statistics		
Conference Report	*N. R. J. Fieller*	1
Some remarks on the role in statistics of graphical methods	*D. R. Cox*	4
Examination of the behaviour of tests for outliers when more than one outlier is present	*P. Prescott*	10
Density ratios, empirical likelihood and cot death	*B. Silverman*	26
Beta-binomial Anova for proportions	*M. J. Crowder*	34
The analysis of designed experiments with missing observations	*R. G. Jarrett*	38
Calibration with an ultra-structural model	*G. H. Brown*	47
The functional form of the U.K. demand for money	*T. C. Mills*	52
A method of re-interpreting promotion rates in terms of promotion prospectuses	*D. G. Jones*	58
The effect of the first observation in regression models with first-order autoregressive disturbances	*D. J. Poirier*	67
Buyer behaviour in management education	*N. K. Powell and J. B. Westwood*	69
Miscellanea		
Joint Conference at Manchester—a Summary Report	*P. R. Freeman*	73
Approximating the cumulative normal distribution	*H. C. Hamaker*	76
Selection of defining contrasts in two-level experiments—a modification	*A. A. Greenfield*	78
Letters to the Editors		79
Book Reviews		
Programming and Algorithms: An Introduction. By *A. J. Guttman*		81
Statistical Methods for Digital Computers. Edited by *K. Enslein*		81
Winning with Statistics: A Painless First Look at Numbers, Ratios, Percentages, Means and Inference *and* Descriptive Statistics: A Contemporary Approach. Both by *R. P. Runyon*		84
Quantitative Analysis for Business Decisions. By *H. Bierman, C. P. Bonini and W. H. Hausman*		84
Models of Preventive Maintenance. By *Ilya B. Gertsbakh*		85
Probability and Statistical Inference. By *R. V. Hogg and E. A. Tanis*		85
Handbook of Statistical Distributions. By *J. K. Patel, C. H. Kapadia and D. B. Owen*		86
Introduction to Decision Theory. By *J. Morgan Jones*		87
General Sources of Statistics. By *G. F. Lock*		87
The Analysis of Survey Data, Vols 1 and 2. Edited by *C. A. O'Muircheataigh and C. Payne*		88
Introductory Statistics: A Decision Map. By *T. R. Harshbarger*		89
Risk Theory: The Stochastic Basis of Insurance. By *R. E. Beard, T. Pentikainen and E. Pesonen*		89
Statistical Methods for Business and Economics. By *R. C. Pfaffenberger and J. H. Patterson*		90
Mathematical Models in Marketing—A Collection of Abstracts. By *Ursula H. Funke*		90
*Statistical Algorithms AS*120–*AS*123		92

AS120 A Fortran algorithm for the additive model in a two-way unbalanced Manova *D. R. Rubin T. W. F. Stroud and Dorothy Thayer*; AS121 Trigamma function *B. E. Schneider*; AS122 Weights for one-sided multivariate inference *R. Bohrer and W. Chow*; AS123 Mixtures of beta distributions *J. M. Bremner* Correction to AS112 *R. J. Baker*

No. 2

Outliers in factorial experiments	*J. A. John*	111
Deterministic and forecast-adaptive time dependent models	*B. Abraham and G. E. P. Box*	120
Linear models and spurious observations	*B. Abraham and G. E. P. Box*	131
A problem in estimating bus stop times	*G. Cohen and K. M. Crawford*	139
Experiments in wording opinion questions	*G. Kalton, M. Collins and L. Brook*	149
Two generalizations of the binomial distribution	*P. M. E. Altham*	162
Multiple time series modelling: another look at the mink–muskrat interaction	*W.-Y. T. Chan and K. F. Wallis*	168
The power function of the exact test for comparing two binomial distributions	*J. T. Casagrande, M. C. Pike and P. G. Smith*	176
Letters to the Editors		181

CONTENTS

No. 2 (cont'd)

Book Reviews

Experiments: Design and Analysis. By *J. A. John and M. H. Quenouille* 182
On the History of Statistics and Probability. Edited by *D. B. Owen* 183
Statistical Teaching Aids (2nd ed'n). Edited by *T. Szmidt and A. F. Bissell* 183
Statistical Analysis for Decision Making (2nd ed'n). By *M. Hamburg* 184
Statistical Designs of Fatigue Experiments. By *R. E. Little and E. H. Jebe* 185
Statistics and Public Policy. Edited by *W. B. Fairley and F. Mosteller* 186
Queueing Systems, Vol. 2. By *L. Kleinrock* 186

*Statistical Algorithms AS*124–*AS*129 188

AS124 Sample sizes for one-sided and strong two-sided distribution-free tolerance limits *H. R. Neave*; AS125 Maximum likelihood estimation for censored exponential survival data with covariates *S. W. Lagakos and M. H. Kuhns*; AS126 Probability integral of the normal range *J. Barnard*; AS127 Generation of random orthogonal matrices *R. M. Heiberger*; AS128 Approximating the covariance matrix of normal order statistics *C. S. Davis and M. A. Stephens*; AS129 The power function of the exact test for comparing two binomial distributions *J. T. Casagrande, M. C. Pike and P. G. Smith*

No. 3

A method of bivariate trimming for robust estimation of the correlation coefficient *A. C. Bebbington* 221
Estimation of correlation coefficients by ellipsoidal trimming *D. M. Titterington* 227
A covariate model for partially censored data subject to competing causes of failure *S. W. Lagakos* 235
The study of outliers: purpose and model *V. Barnett* 242
The influence function as an aid in outlier detection in discriminant analysis *N. A. Campbell* 251
A graphical aid to selection of variables in two-group discriminant analysis *R. J. McKay* 259
The Holt–Winters forecasting procedure *C. Chatfield* 264
Approximations for the percentage points of the chi-squared distribution *J. H. Zar* 280
Computation of a best subset in multivariate analysis *C. E. McHenry* 291
Graphical representation of asymmetric matrices *A. G. Constantine and J. C. Gower* 297
The efficiency of a textile winding process *B. D. Bunday and R. A. Lee* 305
On concurrent regression lines *M. J. Crowder* 310
On strike durations and a measure of termination *I. Sahin and D. J. Hendrick* 319
Estimation problems with data from a mixture *G. D. Murray and D. M. Titterington* 325
Design keys for factorial experiments *H. D. Patterson and R. A. Bailey* 335

Miscellanea

Conference on Ecological Statistics—a summary report *S. Tavaré* 344
Simple approximations for von Mises concentration statistics *A. Dobson* 345
Plotting probability ellipses *D. G. Altman* 347

Letter to the Editors 350

Book Reviews

Computer Programs that Work! By *J. D. Lee, G. Beech and T. D. Lee* 351
Sampling Techniques. By *W. G. Cochran* 352
Tables of Random Times. By *I. D. Hill* 352
Basic Statistics for Medical and Social Students. By *A. E. Maxwell* 353

*Statistical Algorithms AS*130–*AS*133 354

AS130 Moving statistics for enhanced scatter plots *J. F. Gentleman*; AS 131 Tabulating frequency distributions for variables with structured code sets *B. L. Leathers*; AS132 Least absolute value estimates for a simple linear regression problem *R. D. Armstrong and M. T. Kung*; AS133 Optimization of one-dimensional multimodal functions *A. Zilinskas*; ASR24 Remark on AS98 *D. C. Hoaglin and M. L. King*; ASR25 Remark on AS108 *R. D. Armstrong and E. L. Frome*; ASR26 Remark on AS76 *I. D. Hill*; ASR27 Remark on AS6 *J. C. Barrett and M. J. R. Healy*; ASR28 Remark on AS47 *I. D. Hill.*
